Personal data

Date of birth: August 3, 1987, Athens, Greece
Nationality: Greek

Education

Ph.D. from ETH-Zürich, Department of Mathematics, 2011-2014.
Dissertation title: *Analytic investigation of cotangent sums related to the Riemann zeta function.*

Thesis advisors:

Professor Emmanuel Kowalski and Professor Helmut Maier.

Master of Advanced Study in Mathematics from the University of Cambridge, 2010-2011.

Diploma from the School of Electrical and Computer Engineering, National Technical University of Athens (NTUA), 2005-2010.

Research Interests

My research interests lie in mathematical analysis, analytic number theory and more specifically in exponential / trigonometric sums, zeta functions, approximation theory, functional equations and analytic inequalities. I am also interested in the distribution of prime numbers and the analytic investigation of elliptic curves.

My h-index: 11

Academic Employment

Since September 1, 2015, I have been a researcher with teaching duties (I have also been Forschungskredit researcher for 2016-2017) at the Institute of Mathematics of the University of Zürich and a visiting researcher at the Program in Interdisciplinary Studies of the Institute for Advanced Study, Princeton.

During the academic year 2014-2015, I was a postdoctoral researcher at the Department of Mathematics of Princeton University and the Department of Mathematics of ETH-Zürich, conducting research at Princeton with support granted from ETH-Zürich. While at Princeton, I collaborated with John F. Nash, Jr. for the preparation of the volume entitled “Open Problems in Mathematics”, Springer, 2016.
